About

As a Full Stack Junior Dev, I have successfully taken multiple products
from 0 to 1. I lead teams effectively, ensuring an environment where
people can do their best work. Currently, I work mostly with TypeScript,
Astro, PHP, and JS. I have over 2 years of experience.

Work Experience

Mortensen `Ibrid`   2024 – 6 months

Junior Full Stack Developer

At first I worked with NextJS and then with Laravel, PHP and MySQL. I created
websites for different clients and fixed them if something went wrong.

Freelance   2023 – 3 months

Full Stack Developer

I began my journey as a fullstack developer participating in various startups and
teaching computer science to children.

IT Academy `Remote`   2022 – 2023

Back End Developer → Java

Internship on a project for Barcelona, I managed the database in Java with Spring
and both MongoDB and SQL.

Other jobs   2015 – 2022

In summer I'm skipper. My first job was in a dry cleaner's at 17, after that I have
worked in many places since in 2015 there were more temporary contracts. I have been
a waiter, barman, security staff and customer service. I spent a lot of time in
temporary employment agencies.

Education

Open University of Catalonia   2023 – 2025
